Brown Foundation RepairLifetime Limited Warranty

Certificate # 2011-0316

This certifies that the homeowners at

2112 Birch Bend

Mesquite, TX 75181

have used the Brown Method of foundation repair.

If any adjustments are required during the life of this home due to settling, our company will adjust all areas previously underpinned without cost to the owner.

This warranty is completely transferable to any and all future owners of this home, provided no major structural changes have been made or occured, and applies only to the area where Brown Foundation Repair has completed work.

Brown Foundation Repair 1619 Bluebank Dallas, Texas 75229

> July 23, 2011 Final Report 2112 Birchbend Mesquite, Texas Report #11350

As requested the foundation repairs were observed on the above referenced property on July 12, 2011. As per Simpson's report, plumbing leaks were the cause of the differential movement. Our objective was to determine if the foundation was raised to affect an even surface. The foundation has been raised to affect an even surface. The total elevation difference is approximately 2 ½" and was 6" prior to repairs according to Simpson Engineering in December of 2010. The piers do not eliminate movement, but help minimize future movement. Piers do not prevent nor correct upheaval.

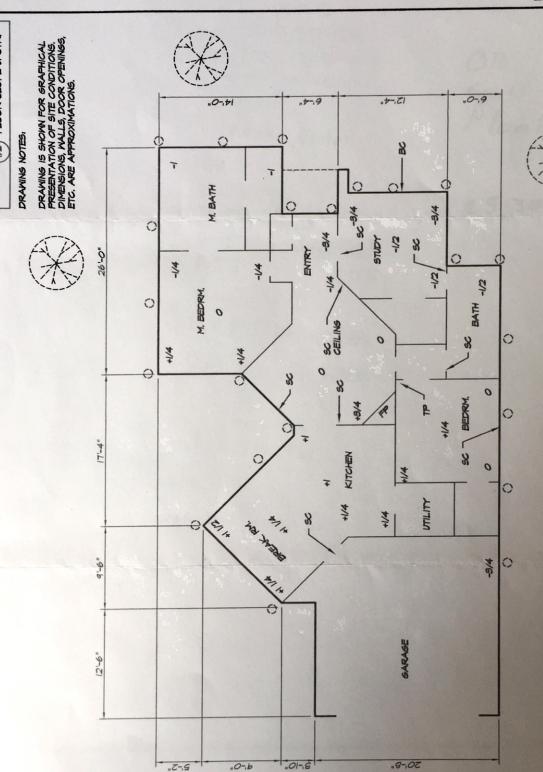

The work appears to have been performed in a good workmanlike manner.

The observations stated in this report indicate the condition of the foundation at the present time and are not to be construed as a guaranty for future performance. These observations consisted of visual observations only and removal of any barriers is not included in this report. The opinions in this report are based on engineering judgment. We have no control over the soil and/or weather conditions at this property; therefore, we cannot be responsible for any future movement that may occur. This report is provided for the express use of the addressee only and is not intended for the use or reliance thereof by any third party, including any other person, company, corporation, etc.

Sincerely,

M.E. Cooper, P.E.
